Therefore, it is impossible for us to give any guarantee and all our seeds are sold with that understanding and if purchaser prefers not to accept seeds on these terms, same may be returned to us at once and we will willingly refund money.

Q We herein give our prices which we trust will be of interest and advantage to you. Our seed business was established in 1881 and through continual, earnest effort and faithful service of the founder, F. P. Cassel, to very carefully watch the selection of the highest quality and most reliable stock of seeds and the satisfactory service to our customers, confidence and reputation was established which is much appreciated and carefully guarded by us. **QUALITY and DEPENDABLE PRICES** is our first consideration and all business given us will be much appreciated and receive our careful attention. Crop and market conditions and other information we will be glad to give to our customers at any time. We have considered our customers interest when making prices and have reduced same rather than advance them. We believe our prices are right for the qualities we are offering.
